MB Pro 1 & MB Pro 2 Bluetooth® Headsets

 **SENNHEISER**
The Pursuit of Perfect Sound

A genuine ear-opener for the all day user

The new MB Pro Series premium Bluetooth® headsets deliver outstanding wireless sound and exceptional listening and wearing comfort. With Sennheiser voice clarity and ultra noise-cancelling microphone, conversations have never been clearer and more intelligible for listener or caller.

For all-day headset users, the ability to seamlessly switch calls from one mobile device to another gives maximum flexibility to their working rhythm, while the Sennheiser "Room-Experience" feature in MB Pro 2 creates a more natural and comfortable listening experience. Designed for the way modern business professionals live their workday, MB Pro is a headset that underlines the value of listening comfort, without compromising on great sound.

Great call quality and a relaxed listening experience

The new MB Pro Series of premium Bluetooth® headsets is designed for business professionals demanding wireless communication freedom, brilliant sound quality, and exceptional wearing comfort.

Sennheiser voice clarity

MB Pro is equipped with legendary Sennheiser voice clarity to ensure a clear and natural sound experience

Ultra noise-canceling microphone

Filters out background noise for perfect speech transmission in busy and noisy environments

Quality Design and Sennheiser Craftsmanship

MB Pro is crafted with high-end materials to Sennheiser's high standards to ensure maximum durability and design quality

Sound-enhancement profiles

MB Pro automatically adapts and optimizes sound for both communications and multimedia/music purpose

Sennheiser patented ActiveGard® Technology

Protects users from acoustic shocks and sudden sound bursts

Up to 15 hours talk time

Communicate in high definition audio for a full-work day

Multi-connectivity

Enable users to seamlessly manage calls between 2 mobile devices from a single headset for maximum call-handling flexibility

Room Experience™*

For a more natural and comfortable listening experience giving less listening fatigue for the all-day user

Exceptional wearing comfort

MB Pro comes with headband and large leatherette ear-pads for a perfect fit to ensure a truly comfortable communication experience

Large leatherette ear pad gives a perfect fit, powerful sound and extra wearing comfort

**Available for double-sided variants with on/off feature*

Ultra noise-canceling
microphone for perfect
speech transmission

Adjustable boom arm
for optimum positioning
and voice recognition

MB Pro 2

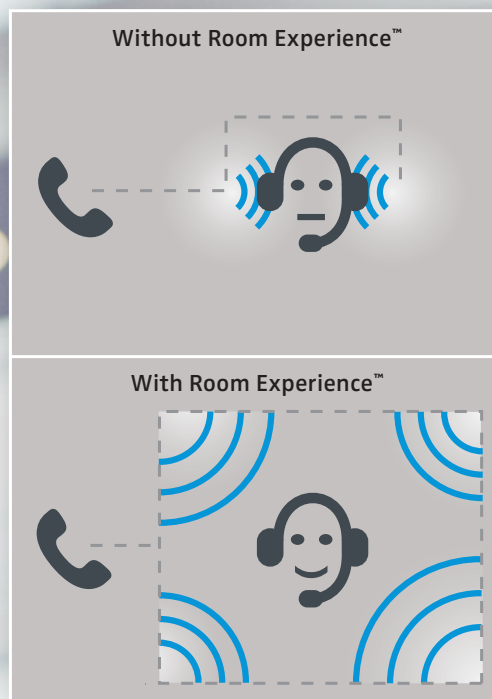

Personalized name tag to
avoid wearing a neighbor's
headset

SENNHEISER

Room Experience™* technology

In our ongoing quest for an even better user listening experience, Sennheiser has created a unique new way to experience headset sound on calls. We call it Sennheiser Room Experience™ and it's designed to reduce listener fatigue for all-day users. By externalizing the sound from your head, Room Experience™ gives you the impression that you are having a conversation with a person in the same room. This more realistic sound gives you a more natural and comfortable listening experience and reduced listener fatigue.

**Available for double-sided variants with on/off feature*

Experience Sennheiser

Perfection is always relative: Users have different expectations from their headsets depending on their needs. For professional users, that need is to communicate as effectively as possible.

With Sennheiser's range of headset and UC solutions, the combination of exceptional HD sound, quality design and build – and a focus on real life usability – give the best performance possible in busy offices, contact centers and Unified Communications environments.

Sennheiser is one of the world's leading manufacturers of headphones, microphones, wireless transmission systems and high-quality headsets for both business and entertainment.

Drawing on the electro acoustics expertise of Sennheiser and the leading hearing healthcare specialist William Demant, Sennheiser's wireless and wired headsets for mobile phones, contact centers, offices and Unified Communications professionals are the result of Sennheiser's leadership in sound quality, design, comfort and hearing protection.
